Sir,

Referring to Government Memorandum No.38700-2B1, L. S. G., dated the 9th January 1937 showing the tentative provision that Government propose to make in the budget for 1937-38 for the grant of loans to Local bodies, I have to bring to your notice that only Rs.50,000/- has been provided for the Mangalore Municipal Council. It is not known whethe this is a mistake for Rs.1,50,000/- as the application for loan from this Council was for Rs.1,50,000/-, or whether

only

only Rs.50,000/- is proposed to be distributed in 1937-38 the rest being given during the subsequent years.

It is proposed to take the work on hand immediately the funds are made available. I therefore request Government will be pleased to inform me if the money will be paid either in April or May 1937, in which case tenders could be called and disposed off by the Council before the end of February.

No tenders have been called for as yet as it was not sure if the loan will be available. It is now proposed to call for tenders in case the money will be available in April or May. It may in passing be mentioned that as the monsoon sets in early in June, the materials have to be collected either in March or April so that the work of spreading and consolidating could be done during the rains.

I therefore request to be informed as to whether the council may expect to get the loan in April and whether tenders may in the meanwhile be called for and disposed off. I also request to be informed as to the amount of loan available for the purpose. Early orders are requested in the matter.

Your obedient servant,

The position may be reviewed in November or December when more definite information about receipts may be available

Is this as much as possible. In my own mind I am not clear as to how we could find say £ less. We had better ask them now whether as they can't get a grant for the roads would they wish for a loan for it in preference to the others. I presume the loan could not be devoted to the roads unless this is done

With reference to portion B of the Secretary's notes on p.1 ante, it is submitted that, as the loan of Rs.1½ lakhs is intended ~~for~~ specifically for improving the surfaces of the 'other roads' and as it is not certain unless large savings become available in the course of the year that the (entire loan will be sanctioned during the current year, the Commissioner may be asked to submit a separate application for loan in respect of the improvements to the Trunk road so that it may be sanctioned during the current year. As, however, it will be difficult for the Council to finance a loan of more than 1½ lakhs, ~~xxxx

that a portion of the loan of Rs. 1½ lakhs will be utilized for asphalting the Mangalore-Bercava Trunk roads. The plans and estimates for asphalting the roads for which the loan is applied to have been sanctioned by the competent authority.

5. Request of the municipal for an increase in the maintenance grant for trunk roads: A grant of Rs 2,350/- (Madras) is now being paid to the Bangalore City for the maintenance of 2 miles 2 furlongs 177 yds of trunk roads (i.e. at the rate of Rs 1000/- per mile). The municipal council requests that, in view of the fact that it proposes to incur an expenditure of Rs 64,500 on shellacting the roads, the maintenance grant payable to it may be increased. It will be noticed from the statement at p. 9 of Go No 3991 R.S.-C. dated 11/9/36, that the estimated life of a shell-ceted road (2½ miles) is ten years and that the maintenance charges will amount to Rs 6,000 per mile at the end of every five years. Besides a substantial amount for It would therefore

It does not seem that the Govt can agree to increasing the present ⑦ rate of maintenance grant as requested by the Council. If it is done in this case, it will have to be done in other cases also, which is out of the question, as it means increased recurring commitment to the Govt. The Council's request for an increased maintenance grant may be rejected straight away. It may be noted that the Council has not specified the increased rate of maintenance grant. Under rule 302 of the Municipal Account Code, estimates for non-sanitary original works amounting to more than Rs.1,000 should ordinarily be approved by the Superintending Engineer, but the Municipal Chairman(Ex.Authority), a councillor or a servant of the Municipal Council possessing the required qualification prescribed under the proviso to Rule 302, may sanction such estimates up to Rs.4,000. In the present case the plans and estimates (costing Rs 207,000) have been approved by the Chief Engineer(B&R.). Sanction of Government is not necessary in the case of non-sanitary original works.

The annuity payable on a loan of Rs 1½ lakhs repayable in 20 years at 3½% (provisional) interest works out to Rs 10,554. The loan of one lakh now proposed to be given will be treated as a separate loan and interest charged according to current rates.

2. According to the B.E for 1936-37, the receipts of the Municipal Council exceed the charges by Rs 24,205 which may be considered to represent the normal position of the Council. The Municipal Council has been allotting large sums on capital expenditure and its closing balance according to the B.E for 1936-37 is Rs ~~14,816~~ 14,816. The Council will be in a position to repay the annuity on the loan if it restricts its capital expenditure in other directions.
